Incident Description:

At 13:01:50 the ECID Security received a call from a client at 82 Bofors Circle, who reported that a suspect had entered their premises and stole copper cables from a truck that was parked on the property. Tango Sierra 6 informed Myertal Tactical Security to observe the open field next to Document Warehouse as the suspect was seen running in the direction of Bonteheuwel. Once informed, it was noted that the client from 82 Bofors Circle was already in the field and recovered the stolen items. Unfortunately the suspect was not apprehended, however the suspect was less fortunate as he had left his bag behind which contained his ID document. Following the discovery of the ID, a case of theft was opened at Elsie's River SAPS.
