1. PROPERTY RATE (reflected as cent-in-the-rand):

The cent-in-the-rand is multiplied by the municipal valuation of the property to calculate the annual rates amount that will be billed, subject to the rebates provided for in the Rates Policy and is zero-rated for VAT.

- Residential Properties - R0.007154 (The City will not levy a rate on the first R200 000 of the market value as per the Valuation Roll)
- Industrial / Commercial Properties - including all Undeveloped Land - R0.014308
- Agricultural properties (including farms and small holdings) fall into three categories:
 - those used for residential purposes - R0.007154
 - those used for bona fide farming purposes - R0.001431
 - those used for other purposes such as industrial or commercial - R0.014308
- Public Service Infrastructure - R0.001789
- Public Service Infrastructure (Phasing out) - R0.000358
- Any property that meets the public benefit organisation criteria included in the Amended Municipal Property Rates Regulations, yet does not qualify for the 100% rebate in terms of Council's Rates Policy, shall be rated at 25% of the residential rate - R0.001789
- The special rebates for Senior Citizens and Disabled Persons for the 2018/19 financial year are reflected in the table below:

The gross monthly household incomes and rebates for the 2018/19 financial year in respect of Senior Citizens and Disabled Persons are as follows:

GROSS MONTHLY HOUSEHOLD INCOME R	% REBATE	GROSS MONTHLY HOUSEHOLD INCOME R	% REBATE		
2017/18	2017/18	2018/19	2018/19

1.8 Property owners must apply for the rebate by 31 August of the financial year in which

a General Valuation is implemented or within three months of implementing a Supplementary Valuation, failing which no such rebate may be granted.

2. CONSUMPTIVE TARIFFS AND CHARGES

Water, Sanitation, Electricity and Solid Waste Management attracts VAT at 15%.

2.1 WATER

There are seven sets of Water tariffs (Level 1 to 7 Reduction tariff). The Level 6 reduction tariffs (as reflected in the tables below) has been in effect since 1 February 2018 and is recommended for the 2018/19 financial year until further decisions regarding the water restrictions are made.

In light of the overall reduction of consumption and evaporation of consumption in the upper volumetric steps which are placing the current progressive domestic stepped tariff structure under severe strain and increased risk, the City is recommending alternative methods to ensure much higher levels of certainty and resilience of the financial model to recover the cost for delivering the service.

Tariff increases are a function of the reducing volumetric base, the significant cost required for the water augmentation plans, acceleration of asset management and maintenance programs and adjusting of the water collection ratio. Specific increases to the customer will depend on the specific set of circumstances. Below are the approved 2018/19 Level 6 restriction tariffs to be implemented from 1 July 2018 as well as the comparative 2017/18 Level 6 restriction tariffs approved during January 2018.

Highlights of amendments

Consumptive:

- The introduction of a Monthly Fixed Basic Charge for Water.
- The Fixed Basic Charge for Indigent Customers will be charged at R Nil.
- Revision of the current six step tariff structure to a four step tariff structure.
- The basic allocation for water to the indigent has been increased from 6kℓ to 10.5kℓ offsetting the ending of the subsidisation of step 2 of the indigent customers.
- The basic allocation for sanitation to the indigent has been increased from 4.2kℓ to 7.35kℓ. This change is however matched by ending the previous subsidisation of step 2 of the indigent customers.
- Uniform tariffs for the non-domestic categories.
- Significant tariff increases on non-potable water sources to start the process of cost recovery to ultimately eliminate current subsidisation of these water sources.
- The introduction of a tariff for Cluster Development Properties registered in the name of a SHRA-accredited Social Housing Institution and, registered as City Partners – Full and Conditional.

Miscellaneous:

- Introduction of tariffs for new connections to the treated effluent network which is no longer subsidised.

Highlights of amendments

- Domestic customers with prepayment meters installed and a municipal property valuation in excess of R1m will be moved to the Home User Tariff as of 1 July 2018

- No change in the allocation of free basic electricity, except for customers who will forfeit this when moving to the Domestic Tariff.

- The Off Peak Tariff is phased out, and customers previously receiving energy at this rate will now pay the Small Power User 1 rate for all energy received.

- All new Large user customers will be required to take their supply at the relevant Large User TOU Tariff (and not Large Power Non-TOU tariff).

- Customers currently on the Large Power and Time of Use MV tariffs who see increases of less than a 5% increase as a result of the structure change will be requested to migrate to the appropriate Large User Time of Use tariff.

- Large Power tariffs increase by 15.14% as part of a phasing out process for those tariffs.

- Atlantis TOU customers will be migrated to the new investment incentive Mv tariff as of 1 July 2018 for a period not exceeding 1 year, after which they will be required to reapply in terms of the City's Investment Incentive Policy to retain the benefit. This tariff is introduced to facilitate broader economic Investment priorities as determined by the City.

- New tariffs are introduced to facilitate wheeling contracts.

- All consumption energy components include a non-regulated amount of 24.54c/kWh, made up of an amount of 5.72c/kWh to fund street lighting and 18.81c/kWh Contribution to Rates.

- Tariff structure adjustments are in line with cost reflective principles.

NOTE: Monthly Service Charges are calculated as the Daily Service Charge multiplied by the number of days in the billing period.

2.4. SOLID WASTE MANAGEMENT

An increase was approved on the consumptive tariffs for collections of 5.7% and disposal of 14.83%.

Highlights of amendments

Tariff Policy

- A change to item 7.1.8.5, indicating that Frail Care Centres will no longer be seen as Residential properties and may make use of alternative Refuse collection services with Accredited Waste Collectors;

- A change to item 11.3.1 indicating that we will no longer have a Half ton tariff linked to the Disposing of waste at our facilities. This has now been replaced with a Quarter ton tariff to accommodate small business;

- New Item 11.3.2 indicates that the Quarter Ton Coupons may only be used to a maximum of three per transaction;

Tariff Book

- New Items 1.3.5.2.5.1 & 1.3.5.2.5.2 - the Introduction of the Builders Rubble tariff that will only be charged at 1 ton increments;

- The deletion of all Tyre Tariffs, as the City may according to the Act not accept any tyres at our Disposal facilities.
