

WARNING

SMASH AND GRAB

Be aware of the current spate of smash and grab incidents on Jakes Gerwel Drive.

This stretch of road remains a smash and grab hotspot. Perpetrators smash one of the side windows and run away with the stolen items. They normally target handbags of females that are lying on the passenger or back seats of the vehicles. The suspects are normally active during peak hours in the mornings and in the afternoons, as well as late at night, when the vehicles are static at red robots.

Please be vigilant at all intersections. Refrain from placing valuables on their car seats. Report all suspicious behaviour.
